SONNY

NOTICE the color picture on the first page. Distinctly unusual and a real novelty, isn't it?

SONNY is an abundant bloomer and is popular with all growers who have seen it. The individual flowers are large, and the long, stiff, straight stems hold the bloom perfectly erect.

The color is most pleasing, and both the deep yellow ground and the pink markings hold without fading until the bloom withers. The colors harmonize in practically all kinds of design work—flat pieces, baskets, or loose bouquets.

SONNY is bound to be a money-maker for the grower, the wholesaler, and the retailer.

Rooted cuttings, \$2 per doz., \$12.50 per 100,
\$100 per 1,000

Ready for distribution on December 1, 1934

BOUNTIFUL

CHRISTENED "BOUNTIFUL" because the name quickly describes the blooming character of the plant. Beginning to bloom early in the fall, it produces flowers for a longer time than most other Carnations.

The color is a clear white, with delicate pink pencil markings. Blooms are large and perfect—in fact, are absolutely non-splitting—and borne on stiff, upright stems.

The plants are compact, have no side-growth, and are exceptionally strong and clean.

Rooted cuttings, \$2 per doz., \$12.50 per 100,
\$100 per 1,000

Ready for distribution on December 1, 1934

BOUNTIFUL

Produces flowers for a longer time than most other Carnations.

THE NEW CARNATIONS SONNY and BOUNTIFUL

are not bound by any patent restrictions. You will need both varieties, as they make a winning combination of novelty and quality that will appeal to the wholesale and retail trade. Both SONNY and BOUNTIFUL are 1928 seedlings, and have been thoroughly tested and tried.
